

### **Concepts and Roles in Community Relations**

In order to achieve a high level of community involvement desired, the Community Education Department has been created to:

1. Make maximum use of community resources to provide a comprehensive, educational program for all students.
2. Establish coordination and cooperation among community groups, organizations and individuals in order to avoid unnecessary duplication.
3. Establish and promote programs which address current educational and community concerns.
4. Encourage increased community involvement utilizing parents/ guardians, businesses, organizations and local government.
5. Integrate local schools with neighborhoods they serve.
6. Provide educational resources to the community as deemed appropriate by the Governing Board.
7. Select and maintain an ongoing advisory committee representative of the community, to function as a vehicle for information exchange.
