

### **Energy And Water Conservation**

District and school-site plans to conserve resources shall address energy and water use at each site, including plans for:

1. Reducing energy use during high-peak hours
2. Turning off lights and equipment when facilities are not in use
3. Updating each site's preventative maintenance schedule for emergency lighting, generators, exit lighting and other safety related equipment.

The following operations shall also be reviewed in order to ensure that they further the district's energy and water conservation goals:

1. Educational programs for employees and students.
2. Classroom and building management and maintenance.
3. Food service and equipment maintenance.
4. Landscaping selection and irrigation during non-peak hours.
5. Transportation services and maintenance.
6. New construction.
7. Administrative operations.
8. Use of facilities by outside groups.
9. Reduced energy use or shutting down of facilities during vacation periods.

To enlist the support which is essential to achieving the district's energy and water conservation goals, the principals at each site shall:

1. Solicit input from staff, students, and parents/guardians related to district energy and water use.
2. Develop strategies designed to ensure cooperation from students and staff in all conservation efforts.
3. Recognize those who reduce energy and water use.
