

## **Fresno Unified Administrative Regulation (AR) 6152 Class Assignment (Grades K-6)**

The district's goal is to place children in classroom environments that facilitate continuing academic and social and emotional growth. Students will experience a variety of teaching styles, classroom structures and flexible groupings in each of our classrooms. There are many variables considered in the class placement process. To accomplish the classroom placement process, the guide below is for principals to utilize to ensure the most effective learning environment for all students.

### Class Placement Process:

During the fourth quarter of school, the district begins the process of assigning students to specific courses and classes for the coming school year.

In addition to the Board Policy 6152 – Class Assignments, the principal may take into consideration the following in determining appropriate placement:

1. Consider every student's individual needs, such as:
  - a. evaluating a student's academic skill levels and learning styles
  - b. student assessment results, grade point averages, and/or grades and prerequisite courses
  - c. social emotional needs
2. Provide diverse classrooms that reflect balance in achievement levels and interests
3. Consider any parent input or information provided to the principal through the district's Parent Input Form
