

Student Assessment

The Governing Board believes that student assessments are an important instructional and accountability tool. Assessment data shall be used to help determine individual students' progress, mastery of academic standards, appropriate placement in district programs, and/or eligibility for graduation. In addition, summary data on student assessment results shall be used by the district to identify and review student achievement goals in the district's local control and accountability plan, evaluate district educational programs in order to identify needed improvements, and, as appropriate, evaluate staff performance.
