(cf. 6158 - Independent Study)

(cf. 6164.4 - Identification and Evaluation of Individuals for Special Education)

Home or hospital instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. (Education Code 44865)

(cf. 4112.2 - Certification)

(cf. 4113 - Assignment)

Parental Notifications

At the beginning of the school year, the Superintendent or designee shall notify parents/guardians that: (Education Code 48206.3, 48208, 48980)

2. The rights and responsibilities of parents/guardians of any student with a temporary disability pursuant to Education Code 48207 and 48208.

Parents/guardians shall notify the principal or designee when their child is temporarily disabled and needs individual instruction at home or in a hospital or other residential health facility.

(cf. 5145.6 - Parental Notifications)

Determination of Student Eligibility

Not later than five working days after receiving notification from a parent/guardian that a student has a temporary disability, the Superintendent or designee shall determine whether the student will be able to receive individual instruction at home or in a hospital or residential health facility. (Education Code 48208)

The district shall offer at least one hour of instruction for every day of instruction offered by the district in the regular education program. No student shall be credited with more than five days of attendance per calendar week or credited with more than the total number of calendar days that regular classes are offered by the district in any fiscal year. (Education Code 48200, 48206.3)

The Superintendent or designee may require verification through any reasonable means that the student requires home instruction. In addition, this verification shall also state that the disabling condition will not expose the teacher to a contagious disease that can be transmitted through casual contact. Home or hospital instruction shall not be denied to students with Hepatitis B, herpes or HIV/AIDS, as long as the home or hospital practices current preventive protocol as determined by the U.S. Centers for Disease Control.

Provision of Individual Instruction

Individual instruction at a student's home or in a hospital or other residential health facility shall begin no later than five working days after the Superintendent or designee makes the determination that the student is eligible to receive individual instruction. (Education Code 48207.5, 48208)

The district shall be responsible for providing individual instruction to any temporarily disabled student who is in a hospital or other residential health facility located within district boundaries, whether or not the student is enrolled in the district. If the student is enrolled in another district, the Superintendent or designee may enter into an agreement to have the student's district of residence provide the individual instruction. The Superintendent or designee may also enter into an agreement to provide individual instruction to a district student who is in a hospital or other residential health facility located within the boundaries of another district. (Education Code 48208)

(cf. 5111.1 - District Residency)

A student of another district who is temporarily disabled and confined to a hospital or health facility within this district shall be eligible to receive individual instruction in this district. (Education Code 48207)

In such circumstances, it is the responsibility of the parent/guardian to notify the district of the student's presence in a qualifying hospital. (Education Code 48208)

Whenever the district provides individual instruction to a non-district student who is in a hospital or other residential health facility located within district boundaries, the Superintendent or designee shall, within five working days of the beginning of the individual instruction, provide written notification to the student's district of residence that, effective on the date on which individual instruction began, the district of residence may not count the student for purposes of computing that district's average daily attendance. (Education Code 48208)

A student receiving individual instruction in a hospital or residential health facility for a partial week shall be entitled to attend school or receive individual instruction at home on days in which the student is not receiving individual instruction in the hospital or other residential health facility, if the student is well enough to do so. (Education Code 48207.3)

Home or hospital instruction shall be provided only by teachers with valid California teaching credentials who consent to the assignment. (Education Code 44865)

Insofar as possible, the teacher providing home or hospital instruction shall consult with the student's current classroom teacher(s) so as to provide a continuity of instruction that enables the student to stay abreast with the regular school program.

The district's attendance supervisor shall ensure that the absences of any temporarily disabled student receiving individual instruction at home or in a hospital or other residential health facility are excused until the student is able to return to the regular school program. (Education Code 48240)

Alternatively, the Superintendent or designee may enter into an agreement with the district in which the student was previously enrolled to have that district provide the individualized instruction. (Education Code 48208)

(cf. 5113 - Absences and Excuses)
(cf. 5113.11 - Attendance Supervision)

2. If a student becomes temporarily disabled, it is the parent/guardian's responsibility to notify the receiving district of the student's presence in a qualifying hospital.
