

Naming Of Facility

Fresno Unified School District is committed to acknowledge our community, students, and staff members who have contributed to the betterment of our learning environment and our society. The Board recognizes and appreciates community involvement and therefore strives to keep the community fully informed and engaged in developments within the school system.

The Communications office will facilitate the following process, including input from parents, community members, staff, and students within the school boundaries:

- a. The District will lead all naming processes. No school sites are to undertake this activity absent direction from district staff. Naming of all facilities and venues are the purview of the Board of Education. The District will notify the members of the community that names will be accepted from the naming of a facility. It will specify the timeline for submission of names. Notification will include: Teleparent, school newsletter or equivalent, and webpage posting.
- b. An ad-hoc committee made up of a district representative, the site administrator and a member of the School Site Council or equivalent will receive the names and will research and/or gather background information on the names submitted.
- c. The appropriate District/site staff will review names to ensure the criteria outlined by Board Policy 7310 are met.
- d. Names would then be communicated to the school community for input.
- e. If the facility is a new school, the ad-hoc committee will obtain the research of the Fresno Historical Society as needed (this will allow us to provide the board with the full historical context of the region).
- f. Based on the community input, the ad-hoc committee will forward all the names received for the Board for consideration.
- g. The Board will make the final decision on the naming of the facility/venue on property owned by the district.

Regulation FRESNO UNIFIED SCHOOL DISTRICT
Approved: December 16, 2010 Fresno, California
